# FOURTH WALL

## NOUN

*in theatre, television, film, and other works of fiction, an imaginary wall between actors and their audience*

IU Cinema is pleased to share our first installment of FOURTH WALL, our bi-monthly programming calendar!

In film, the camera acts as a fourth wall, allowing the audience access into the world on-screen. FOURTH WALL serves a similar function, bringing you into the world of IU Cinema programming with highlights on upcoming guests, new series, program announcements, and—most importantly—our upcoming film schedule for the next two months.

We're thrilled to include the premiere of several exciting programs in this issue:

- **Re:Made** - pairing an original film with its remake to articulate how filmmaking, film culture, and film impact evolves as the industry, audiences, and cultures change. Each pair is combined with a conversation between filmmaking professionals, academics, and other film experts, focusing on an aspect of the films' evolution over time.
- **Women on Top: Legacies of Women in Global Cinema** - training a focused eye on the past, present, and future legacies of women global filmmakers. From writers, to directors, to cinematographers, to curators and more, this program foregrounds the vitality of women in a global film landscape and celebrates their ongoing and indispensable cultural contributions with screenings, industry guests, student mentorship sessions and masterclasses, and keynotes.
- **New Americas Cinema** - bringing together the cutting-edge of new art house and independent filmmaking from North, Central, and South America. Presented in partnership with The Ryder Film Series.
- **Silent Film Day** - IU Cinema's first foray into the nationwide celebration of the art of silent film.
- **Home Is Where the Heart Is: Black Cinema's Exploration of Home** - a uniquely curated program of ten films from IU Cinema's fall programmer-in-residence Maya Cade.

**FOURTH WALL** is designed to help you easily access IU Cinema programming, wherever you are. Unfold it and stick it on the fridge, pop it on your paper calendar, put it in the pocket of your bag, access a digital version on our website that you can keep on your phone, find it on our social media platforms, pick up a copy on campus or around town, or add yourself to our mailing list by giving us a call. See you at the movies!

## MEET MAYA CADE

### IU CINEMA PROGRAMMER-IN-RESIDENCE

IU Cinema is thrilled to have Maya Cade with us throughout September as our guest programmer-in-residence. Maya is the creator and curator of Black Film Archive and a scholar-in-residence at the Library of Congress. The Black Film Archive—a register of Black films from 1915 to 1979 that are available to stream online—is a living, breathing, publicly accessible archive of Black film history, craft, and storytelling.

For the month of September Maya has curated five programs—each comprised of a special introduction, short film, and feature presentation—that help to inaugurate the next phrase of her archive project, focused on films made in 1979 and after. Maya's program HOME IS WHERE THE HEART IS: BLACK CINEMA'S EXPLORATION OF HOME is an expansive look into the many mutations of the idea of "home," including through the lenses of family, ancestry, the body, queerness, and transition.

Maya's film programming will be augmented by a display of archival holdings from IU's Black Film Center & Archive in the Cinema's lower lobby and a Jorgensen Guest Filmmaker conversation on September 30 at 7pm.

Maya is a true force to be reckoned with in the contemporary film world. She has been awarded special distinctions by the New York Film Critics Circle and the National Society of Film Critics for the Archive, and her work has been featured in *The New York Times*, *The Los Angeles Times*, *NPR*, *The Paris Review*, and *Vulture*, among other publications.

We can't wait for you to share in this special month-long series with Maya and IU Cinema.
